

PowerMust 800 Pro

Un-interruptible power source for PC work stations.

Product Positioning

- Electrical protection

Target customers

- Home users
- SOHO users
- Business users

Package Contents

- Installation guides

PowerMust series surpasses the competition in producing the smoothest transition from sinewave to stepsine wave.

Features

- Provides an uninterrupted power source to protect your sensitive electronic equipment, or computer against blackouts, brownouts, spikes, sags and surges.
- Equipped with 2-step Boost and Buck AVR
- Built-in RS-232 Communication Port
- Auto charging battery even though UPS is off
- Replaceable Battery Design
- 3-LED display for easy understanding
- Provides AC overload protection
- Provides Modem/Phone line surge protection
- Compact size, lightweight, fits on top of most tower case PCs.

The Compact Power Security

The Power Must 800 Pro is compact and easily fits into any workplace. This model has a maximum power reception of 800VA to provide the perfect electrical protection for any PC. The Power Must controls the electrical input frequency in the range of $\pm 10\%$ and thus protects the sensitive computer electronics from lightning, transient voltages, overload, and short-circuit damages. It is also built-in with DC start function. This function enables the UPS to be started up without AC power supplied. This model is equipped with Smart RS-232 Communication Port to offer users more benefits. The model has 3 three-prong electrical inputs and the phone line in/out ports which provide convenient connection and protection for the network and other time critical computers and servers.

Audible and Visual Warning

The Power Must series give audible tone alarms and the visual warning dialogue boxes on screen whenever there occurs a power shortage.

Such warnings allow users to monitor and react to save their important work comfortably.

Reliability

In addition to the quality UPS-System and the on-line help system, this product package also includes a detailed manual and its global access to Mustek's technical support department. It features a standard warranty, outstanding technical support and is manufactured under strict ISO-9001 guidelines.

About Mustek

Mustek was established in 1988 and made the very first and unique hand-held scanner with a PCMCIA interface for PCs and Notebooks. This innovative and dynamic scanner pioneer has matured and diversified their products offerings from scanners to digital still cameras, LCD projectors, DVD players and UPS systems for the global market. All production follows ISO 9001, 9002 regulation and adheres to most international industry standard.

Technical Specifications

Capacity	800VA/480W
Voltage	115VAC or 220/230/240 VAC
Frequency	45 ~ 65Hz (Auto Sensing)
Output	
Voltage	115 VAC or 220/230/240 VAC
Frequency	50Hz or 60Hz
Frequency Regulation	$\pm 1\%$
Waveform	Modified Sine wave
Transfer Time	2 ~ 6 ms
Battery	
Battery Type	12V / 9Ah x 1pc
Recharge Time	4 hours to 90%
	after complete discharge
Indicator	LED
	Audible Alarm
Dimensions (D x W x H)	330 x 100 x 140 mm
Net Weight	6.5kg
Interface:	Smart RS-232
Supported OS:	Novell, Linux,
	Windows 95/ 98/NT/2000/XP
