High-Speed A3-Size Scanning

Mustek S series A3 flatbed scanner takes 8 seconds only for an A3 size, 200dpi color scanning.

2400 x 2400 DPI

Exceptional Scan Quality

Mustek S series equips with a high resolution Contact Image Sensor (CIS). It provides a maximum optical resolution of 2400 x 2400 dpi to deliver perfectly optimized scans that preserves your exquisite pictures and documents.

LED Light Source Technology

LED Light Source Technology

Mustek S series uses LED light source which enables faster scans and energy-saving.
There is no warm-up time required and no mercury included. The LED technology is more friendly to the environment than the traditional cold cathode fluorescent lamps.

Convenient Automatic Multiple Images Cropping

The brand new ViiScan advanced scanning software enables to scan multiple photos and automatically crop them after deskew and save individually, which simplifies the scanning process significantly.
Unique Frameless and Narrow Boundary Design

The unique frameless and narrow boundary design, Mustek S series makes it easy to slide scan objects out after scanning. When scanning thick bound books, it allow books to lay flat against the platen's surface, which eliminates the book spine shadow during scanning.

Powerful Image Processing

The brand new ViiScan advanced scanning software comes with many benefits and features.

Dust Removal | Color Restoration | Punch Hold Removal | Background Color Smoothing

Support TWAIN Driver | Support WIA Driver | Intelligent Algorithm | Multiple Languages OCR
